

# Riverside Elementary

Have you heard about the  Hunt?

All around the country people are creating **rainbows** to hang in their windows to spread joy!

It is important to stay home and practice social distancing.

However, it is also important to get some **fresh air** and **exercise** by going for a **walk outside**.

When you go for a walk, look for **rainbows**! See how many you can find.

- Today, you get to make your own rainbow...but not just any ordinary rainbow, a *musical* rainbow...your very own

## Rainbow Rhythm!

Write a rhythm for each color of the rainbow.

Each color should have **4 beats**.

- Choose from the following: each rhythm gets one beat; use 4 per rainbow colour.

- Write the notes in pencil first and then go over them with a thin black marker.
- Color in your rainbow! (this way each rhythm has its own color)
- See the example to get you started:
